A madcap collection of memoirs
from Marin County California's
Sunday Morning Ride
and other epic motorcycling adventures**

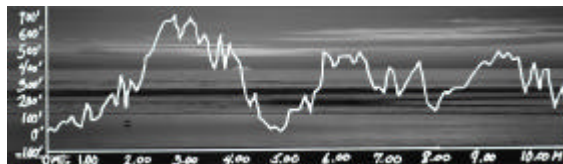

"Although the Coast Highway has been popular with motorcyclists ever since there have been cyclists around, the Sunday Morning Ride as such originated with a young English Vincent enthusiast, in the early 1950s."

—George Martin, contributor.

As we enter the 21st century, *The Ride* is still on, and approaching its 5th decade. Author **B.T. Bullet** takes the reader on an insightful journey into the Sunday Morning Ride, in her own very creative way.

Through 527 pages of short stories and photographs contributed by fifty riders, *Tales from Over the Edge* exposes the intangible enchantment of riding Highway One on two wheels as only Sunday morning riders can do.

Take *The Ride* in *Guided Tour* chapters complete with maps & elevation profiles.

Gather around the table in *The Edge of Breakfast*, as they bench-race and recall humorous tales of antics to evade local law enforcement officials who have historically tried to shut down *The Ride*. Take epic adventures with *The Big Dogs* who fearlessly blaze the trail to Mexico on street and dirt. Discover what riders do in an attempt to promote safety, responsibility, community awareness—and *much more!*
